

**Governor's Traffic Safety Advisory Commission**  
**Impaired Driving Action Team**  
**Meeting Minutes**  
**January 19, 2016**  
**10:00 a.m.**  
**MSP HQ 1970 Conference Room**

<b>Attendance</b>	
Name	Agency
Gary Bubar	AAA Michigan
Lisa Fockler	Remedy Exchange
Lee Ann Gaspar	MI Dept. of State
Susan Hiltz	AAA Michigan
Deborah Hollis	Dept. of Health and Human Services, Office of Recovery Oriented Systems of Care
Casey Holvenstot	MI Dept. of Transportation
Eric Kabdebo	MI Dept. of State
Lt. Gary Megge	MI State Police
Dianne Perukel	MI Office of Highway Safety Planning
David Puck	MI Licensed Beverage Association
Mary Rademacher	MI Dept. of State
Christy Sanborn	MI Office of Highway Safety Planning
Barb Subastian	MI Liquor Control Commission
Colleen Tulloch-Brown	MI Dept. of State

<b>Agenda Item: GHSA Drugged Driving Report</b>
<b>Discussion:</b>
The Governors Highway Safety Association recently published a report entitled, " <a href="#">Drug Impaired Driving: A Guide for What States Can Do</a> ," which summarizes the current state of knowledge of drug use by drivers on America's roadway and identifies actions that states and other stakeholders can take to detect and prevent drug-impaired driving.
<b>Action:</b>
Before the April meeting, please review the report and contact Dianne Perukel if you have anything that your agency contributes to end drugged driving. Dianne prepared a document that summarizes Michigan's countermeasures on drugged driving.

<b>Agenda Item: Marijuana Data Update</b>
<b>Discussion:</b>
The Office of Highway Safety Planning (OHSP), in conjunction with the University of Michigan Transportation Research Institute (UMTRI), is doing a 5-year data analysis on marijuana-involved traffic fatalities. Once the data becomes available, Dianne will share with the group.
Two other documents were discussed: <a href="#">Colorado's Marijuana Data Discovery and Gap Analysis</a> <a href="#">Vermont's Health Impact Assessment/Marijuana Regulation</a>
<b>Action:</b>
If anyone has suggestions for marijuana-involved traffic crash data to be reviewed, please contact Dianne.

**Agency Updates:**

**Gary Bubar/Susan Hiltz, AAA Michigan:** AAA has several resources for [drugged driving](#) as well as an [online pledge](#) to drive alcohol- and drug-free. AAA also has their [PROMise program](#), targeted towards teens with safe driving messages during prom and graduation. AAA Michigan also has driving simulators that people can use at school and community events. Contact Gary if interested.

**Lisa Fockler, Remedy Exchange:** there has been an increase in referrals for the [PRIME for Life](#) program from out-of-state offenders trying to get their Michigan license reinstated. This speaks to the need for Michigan to have reciprocal standards with other states, as well as consistent standards across the state for DUI education programs. The [Genesee Alcohol & Addiction Prevention Coalition](#) continues to address underage drinking and prescription drug misuse through a [Partnership for Success](#) grant from MDHHS-OROSC.

**Lee Ann Gaspar, MDOS:** work on the annual [Drunk Driving Audit](#) has begun; her [team](#) is working with the courts on compliance and proper reporting procedures of alcohol offenses.

**Deborah Hollis, MDCHHS:** A reminder of their underage drinking and prescription drug prevention campaign, "[Do Your Part](#)." They are also in the midst of rolling out the state's recommendations from the [Prescription Drug Task Force](#), which is on the fast-track for implementation. A [grant](#) for transitioning adolescents/adults (ages 16-20) to increase access to treatment and recovery resources is also being implemented.

**Casey Holvenstot, MDOT:** work continues on a project interface project with the UD-10 reports called [Roadsoft](#), which provides MDOT with better tools to conduct in-depth analysis of crashes, including DUI/DUID-related crashes to determine trends and engineering countermeasures.

**Eric Kabdebo, MDOS:** gave an overview of the new Traffic Safety Programs Section, which will be implementing traffic safety programs. MDOS is also working with all of the [action teams](#) to get safety messages shown at the branch offices via the [Motor Vehicle Network](#). March and August will feature impaired driving messages.

**Lt. Gary Megge, MSP:** MSP's Traffic Services Section is busy coordinating [ARIDE](#) classes and the upcoming [DRE](#) school. TSS is also working with OHSP on the marijuana data project and drugged driving initiatives. Lt. Megge made a drugged driving arrest while in uniform driving an unmarked car.

**Dianne Perukel, OHSP:** marijuana goggles are available to borrow through OHSP; [PAAM](#) will be hosting a 1-day drugged driving event on June 16, 2016 (details forthcoming); a new DRE school will begin next week with 22 law enforcement officers and 4 prosecutors.

**David Puck, MLBA:** MLBA will be submitting a project proposal to OHSP for FY17.

**Mary Rademacher & Colleen Tulloch-Brown, MDOS:** work continues on the development of the automated [ignition interlock](#) violator system, which will eventually reduce the number of steps and backlog for MDOS to process violations. They are also waiting for pending legislation to pass that will provide more oversight of the ignition interlock vendors.

**Christy Sanborn, OHSP:** working on project plans for FY17.

**Barb Subastian, MLCC:** changing from an Oracle database to Sales Force. MLCC also has a report on their website to report [vendors who sell to minors](#).

**Future Meeting Dates**

All meetings start at 10:00 a.m. and are held @ the Michigan State Police Headquarters

April 20, 2016

July 20, 2016

October 19, 2016

The Michigan Traffic Safety Summit is March 22-24, 2016, @ the Kellogg Center in East Lansing
